## SERVICE AWARDS PRESENTED TO 352 EMR-T EMPLOYEES

Initiating a new Service Award Program, EMR-T presented service awards to 352 employees this month in recognition of their years of valued service with the company.

Implementation of the EMR Service Award Program began on February 8 when 20-year service emblems were presented to three employees in a special ceremony. EMR President J. P. Magnin, and Mr. John E. Rhodes, Executive Vice President of Schlumberger Limited, N. Y. C., presented 20-year service emblems to General Manager Leo G. Chappell, who joined the Schlumberger organization in 1948; Curtiss T. Dyke, of Systems, with Schlumberger and EMR since 1950; and Alf C. Englund, of Quality Control, who joined EMR in 1947 in Ridgefield, Conn. In addition, Curt Dyke and Alf Englund received gold wrist watches.

Under this new Service Award Program, emblems are presented to employees to commemorate major service anniversary milestones of 5, 10, 15, 20, 25 and 30 years. Because the awards program is new, these initial awards served as "catch-up" presentations. Employees who had been here at least 5 years, and not more than 9 years, received 5-year emblems, etc.

Fifteen-year service awards were presented by General Manager Chappell to:

Betty Boyce, Assembly  
Ethelyn (Mac) Brown, Assembly  
Bettye W. Bunn, Accounting  
Gerry Flewelling, Engineering  
John Moore, Procurement  
Don Parker, Material Planning  
Adele Ritch, Accounting

Twenty-year service awards were presented to (left to right): General Manager Leo G. Chappell; Systems Engineer Curt Dyke; and Quality Control Supervisor Alf Englund, by EMR President J. P. Magnin and Mr. John E. Rhodes, Schlumberger Limited Executive Vice President.

Two Field Office personnel were also eligible to receive 15-year service awards. They are John Harry, of Silver Spring, Md., and John Sherman, of El Paso, Texas, and both received service pins and letters from General Manager Leo Chappell.

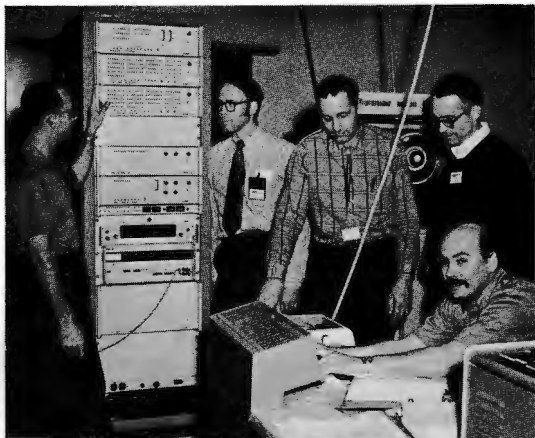

Ten-year and five-year service emblems were awarded to 340 EMR-T employees by Organization and Department Managers.

"It is a pleasure to present these tokens of appreciation to loyal employees who have given valued service over the years," Mr. Chappell noted. "Our appreciation goes as well to the more than 100 EMR-T employees who have not yet reached their

## EMR COMPUTER / TELEMETRY SYSTEM GOES TO SANDIA

A new EMR computer-controlled decommutation system, shown here during acceptance testing, was shipped to Sandia Laboratories, Albuquerque, N.M., recently.

Standing at the telemetry front-end are Jack Cain, of EMR-T Systems, and Sandia Project Engineer Alan Campbell, with Sandia Programmers W. M. Whalen and D. C. Browne. Joe West, of EMR-C, is seated at the EMR 6135 Computer console.

The EMR system will perform telemetry checkout on telemetry packages before they are used at the Sandia facility. Sandia is an Atomic Energy Commission prime contractor. The Sandia telemetry organization handles data gathering for Sandia's far-flung field operations at test ranges in this country and overseas.

EMR-Computer, Minneapolis, had contract responsibility for this system and provided the EMR Computer and peripherals. EMR-Telemetry was responsible for the rack of 2700 equipment and telemetry/computer interface, mating the telemetry front-end with the EMR Model 6135 Data Processor.

Special acceptance test software was designed here in our Software Systems Department.

## CREDIT UNION NAMES OFFICERS, COMMITTEES

EMR Sarasota Employees Credit Union Board of Directors has elected its officers and committees for 1971 as follows:

President: Marshall K. DuBois  
Vice President: Glen E. Johnson  
Secretary: Dorothy L. Watson  
Treasurer/Mgr: Ruth E. LaCroix  
Directors: Josephine E. Snyder,  
Royal A. Bechtold, William J. Gregory

Supervisory Committee: Keith S. Thatcher, Chairman; Judy P. Amuso, Charles Harris

Credit Committee: John S. Norton, Chairman; Ernelda V. Kragel, George T. Zimmerman. Alternate: Mary Jo Meyers; Loan Officers: Donna J. Watkins, Rose Marie Latchem; Loan Investigator: Martha S. Lambert

Publicity/Education: Josephine E. Snyder  
Delinquent Loans: M. K. DuBois (acting)

## SWS MANAGERS VISIT EMR-T

Members of Schlumberger Well Services' management team met in Sarasota early this month for business discussions and visited EMR-Telemetry for a plant tour.

SWS visitors who toured our facility on February 3 included: M. E. Loy, President of SWS, Houston; C. W. Buchholz, Western Regional Field Manager, Denver; C. F. Gallagher, Central Regional Field Manager, Tulsa; W. H. Hartsell, General Manager, Schlumberger Canada; A. Misk, Director of Market Planning, SWS Houston; F. M. O'Brien, Southwest Regional Field Manager, Houston; R. R. Rieke, Vice-President, Marketing; C. A. Rosenthal, Personnel Director; A. J. Salaber, Vice-President, SWS U. S. Field Operations; E. S. Scholl, Sales Manager; J. H. Smith, Administrative Assistant V-P, Operations; M. P. Tixier, World-wide Log Interpretation; F. H. Yeagers, Southeastern Regional Field Manager, New Orleans.

## VEHICLE TEST SYSTEM IS A HIT AT LOCAL SHOW

Thousands of Sarasota residents and visitors had an opportunity to see EMR-T's Vehicle Test System at the Sarasota Jaycees Auto Show recently, thanks to prompt action by several EMR-T men.

Bill Salter, of Design and Drafting, was chairman of the Jaycees Auto Show which attracted nearly 5000 persons to Robarts Arena January 28-30. Walt Giblin, of Quality Assurance, is serving as Publicity Director for Jaycees projects. The two EMR men responded quickly to a suggestion by Bob Anderson, of Systems, that the EMR Vehicle Test System (which had been on display at the Society of Automotive Engineers' Exposition in Detroit) would be an attractive addition to the local Jaycees Auto Show. They talked to John McQueen, of Customer Service, and permission was granted to use the EMR display at the local Auto Show.

But there was a hitch -- the display was slow in returning from Detroit.

After expediting, and many phone calls, the EMR display arrived at the Robarts Arena late Friday afternoon. John McQueen rolled up his sleeves, and had the eye-catching booth set up in a couple of hours.

"It turned out to be one of the most popular displays at the Auto Show," reports Bill Salter. Walt Giblin adds, "The kids loved 'riding' the Boonie-Bike, and a lot of local citizens are now aware that EMR is in the vehicle testing business."

John McQueen, Miss Florida, and EMR's Vehicle Test System at Jaycees Auto Show.

## INCREASE PARTICIPATION IN GROWTH PLAN

Many EMR-T employees elected to increase their contributions to the Schlumberger Contributory Investment Growth Plan during the month of January, reports Jim Appledorn, of Personnel. Some 143 employees increased their contributions, and the average percent of contribution per participant moved up from 3.5% to 5.3%. Total number of EMR-T participants is now 429.

# SERVICE AWARDS PRESENTED TO 352 EMR-T EMPLOYEES

(Continued from Page 1)

fifth anniversary of service, but who daily make significant contributions in our combined effort to make EMR-Telemetry a success."

Here's a breakdown of the number of employees who received service awards:

	<u>20yrs.</u>	<u>15yrs.</u>	<u>10yrs.</u>	<u>5yrs.</u>
Manufacturing	1	4	82	119
Res. & Eng'g		1	15	38
Systems	1		12	20
Marketing			11	11
Field Offices		2	3	6
Personnel			4	4
Accounting		2	4	9
Exec. Office	<u>1</u>			<u>2</u>
Totals	<u>3</u>	<u>9</u>	<u>131</u>	<u>209</u>

The service pins (tie tacks for men and brooches for women) are 14 karat gold with a triangular-shaped emblem bearing the inscription "Schlumberger" and "EMR."

The pins represent years of service as follows:

<u>Years</u>	<u>Award</u>
5	14 karat Emblem (with)
10	Two sapphires
15	Three sapphires
20	One diamond, two sapphires; and gold watch
25	Two diamonds & one sapphire
30	Three diamonds

In the future, five-year pins will be presented to employees by Department Managers on the first of the month following the anniversary date, and 10-year pins by Organization Managers; 15-year pins will be awarded quarterly by the General Manager. Twenty, 25 and 30-year awards will be presented every six months by EMR's President.

General Manager Leo G. Chappell (far right) congratulates 15-year service award winners Don Parker, Betty Boyce, Ethelyn Brown, Bettye Bunn, John Moore, Gerry Flewelling, and Adele Ritch. Other 15-year veterans, not in photo, are John Sherman, of our El Paso office, and John Harry, of Silver Spring, Md.

## UNHARMED BY EARTHQUAKE

Earthquake tremors were felt by EMR employees in California during the recent quake, but all of our California personnel are safe and sound, according to Pat Fraser, of EMR-T's Los Angeles Field Office. "We have some cracks in the office wall, and at home some things were tipped over, but generally we were all pretty lucky," Pat noted.

Over in Lancaster, Calif., about 60 miles from the Los Angeles Office, EMR-T's John Brady, Jack Cain, Art Kelley and Roland Olson were asleep in their motel rooms early Tuesday morning, February 9, when the rumbling and quaking started. The four men were in California on EMR business. Three headed for the outdoors when they felt the 6 a. m. vibrations. The fourth -- who shall be nameless -- slept through it all!

Minutes after the shock subsided, Roland Olson's phone rang. Returning to his room to answer the phone, he discovered it was the motel's Desk Clerk calling to awaken Roland as instructed. Roland responded quickly: "Thank you, but I heard you the first time!"
