SARASOTA ORDERING EMR WATER QUALITY MONITORING SYSTEM

Sarasota County Purchasing Agent William F. Burke has written to notify us that EMR has been selected to supply a water quality monitoring system for the Sarasota County Health Department. A contract is now being prepared.

"We are especially pleased to have our own home county of Sarasota as a customer for our water quality monitoring equipment," said Water Quality Monitoring Product Manager William E. Hardman. "This forward-looking step by our local officials will put Sarasota in the forefront as a leader in water pollution monitoring, and will be an important advance in the community's effort to preserve our beautiful bays and estuaries," Bill said.

WALKING FOR OTHERS

Our own Daryl DeLoreto, of Production, was among the marchers who participated in the March of Dimes "Walk for Humanity" on Saturday, May 6. Daryl walked the whole 20 miles of the Walk-a-thon and accumulated \$80 in contributions from her sponsors for the walk. Among her sponsors were many of her EMR colleagues. "Muscle cramps during the last few miles, and a couple of small blisters" were her only problems Daryl says.

Daryl has done volunteer work at Happiness House and says she would like to do even more to help handicapped youngsters.

ALF ENGLUND HONORED ON 25TH ANNIVERSARY

Shown here discussing Alf Englund's experiences during his quarter of a century in the electronics business are: Bob Walter, Norman Siegel, Alf Englund and Leo Chappell.

Alf C. Englund, Supervisor of Quality Control, achieved the 25-year milestone of his EMR career on May 5. General Manager Leo G. Chappell presented Alf's quarter-century service award in a special ceremony attended by Manufacturing Manager Norm Siegel and Quality Assurance Manager Bob Walter.

Alf's 25-year Schlumberger service pin contains two garnets and a sapphire on a gold field. The presentation also provided an occasion to compare notes on the many changes in our company and the industry since Alf joined EMR in Ridgefield, Conn., back in May, 1947.

Among EMR-T employees, the closest runners-up in point of service are General Manager Leo Chappell and Curtiss T. Dyke, of Aerospace Systems, with seniority dates of 1948 and 1950 respectively.

IT WAS A BEAUTIFUL DAY FOR OUR FAMILY PICNIC

NEW VOLUME PUBLISHED BY EMR INSTRUMENTS

A new EMR-T publication--by Richard N. Ridgewell, Product Line Manager in our Instruments organization-- is ready for distribution to customers and potential clients. Entitled "Frequency Domain Analysis of Linear and Non-Linear Feedback Control Systems with Nichols Charts and Describing Functions," the book contains nearly 100 pages of text, tables and charts.

Copies are going to college and university personnel engaged in research and teaching in electro-mechanical departments. The volume deals with the theory and applications of frequency response analysis to feedback systems, and relates to our range of Frequency Response Analyzers. The publication sells for \$5 and was printed and collated in our own Reprographics Department.

CONGRATULATIONS, BILL

Bill Salter, Lead Designer in our Design and Drafting Department, has just been elected President of the Sarasota Jaycees. Bill takes office next month as head of the local group which includes some 107 young men who are active in various projects which benefit the community.

SEE CREDIT UNION FOR LOAN SERVICES

The EMR Credit Union Board of Directors has recently taken two actions aimed toward providing even better service for the membership:

- 1) The Signature Loan limit has been increased to \$2500. for qualified borrowers.
- 2) It is now possible to establish a line of credit which provides for pre-approval of loan applications and immediate access to funds as required.

Contact the Credit Union for details.

It was a beautiful day for our Family Picnic Saturday at Sun N Fun -- bright sunshine, cool breezes, food, games and prizes, and nearly 700 employees and their families relaxing together.

Mike Brown, of Test, won the door prize-- a broiler-rotisserie. Here are some of the other prizes and the lucky winners:

HORSESHOES - trophies went to:

Men's Division: 1st, Bob Anderson & Warren Darr; 2nd, Tom Toler & Richard Cabana

Women's Division: 1st, Lorraine Radwell, Darlene Cabana; 2nd: Gwen Santaniello, Linda Anderson

MINIATURE GOLF

Men: Frank Nainby, Brian Nainby

Women: Jackie Clark, Caryl Faso

Children: Jeff Norris, Carl Channell

SHUFFLEBOARD

First: Don & Gwen Santaniello

Second: Nicky & Donny Santaniello

GOLF PITCH & PUTT PLAYOFF

First: Steve Wernet; 2nd, Don Norris;

3rd, Ty Rigdon

BINGO PRIZES: Panasonic cassette tape recorder; Panasonic portable radio; ice cream freezer; attache case; salad bowl set; Coleman cooler; Cross gold pen and pencil set; colonial wall clock; popcorn

maker; TV tables; book ends; bartender's set; silverware service; GE carving knife; meat carving cutlery; spice rack set.

Special recognition is due the many volunteers who worked to make the event a success: Chairman: Chris Papastrat; Food: Kent and Ann Morgan; Bingo: Ed Domrzalski; Children's Games & Auction: Cliff Hord; Softball: Daryl DeLoreto; Golf: Dan Eckroad; Volleyball: Tom Toler; Horseshoes: Mike Gerack; Shuffleboard & Miniature Golf: Chris Papastrat.

Others who rolled up their sleeves and pitched in on various duties were:

Mary Bell, Gerry Ecker, Bill England, Frank Guinn, Bernie Hartenstein, Joyce Holladay, Phyllis Hord, Dick Kolchakian, Martha Lambert, Frank Lynch, Ruth Marquis, Paul Milo, Pearl Point, Pat Power, Tony Ramos, Jim Rexrode, Mike Russell, Jim Spaihts, Judy Stolz, Dan Toler, Brian Van Tassel, Jean Wernet, Johnnie Williams, George Zimmerman.

PRODUCTION MANAGER COMMENDS EMPLOYEES

"Results of our first quarter performance in Production were very satisfactory, and I'd like to be able to tell each person individually that they've done a very, very good job." Those sentiments were expressed to PULSE recently by Production Manager Jack Clark. He commented on the Production Department's response to the pressures of short cycle time, re-scheduling to meet shipping requirements, and the generally cooperative attitude of employees about working overtime when needed.

"From hourly workers through supervision, I feel we've made progress in working as a team," Clark said. "Our volume of shipments has steadily increased, and all of the dollar commitments (shipments) in all three months of the first quarter were met or exceeded," the Production Manager said.

EMR-T TRANSMITTER ON SUCCESSFUL FLIGHT

The Department of the Army has announced the recent successful flight at White Sands Missile Range, New Mexico, of an experimental vehicle designed to demonstrate the very high maneuverability and control response required of an advanced missile defense interceptor. EMR-T has received word that our Model 3602 Transmitter flew successfully aboard the experimental vehicle, and supplied vital data on the vehicle's operation under extremely difficult environmental conditions.

EMR-T has supplied a number of these transmitters to McDonnell Douglas Astronautics Company, of Santa Monica, Calif., for this defense program.

NEW DISCRIMINATORS ORDERED BY SANDIA

An initial order has been received from Sandia, Livermore, Calif., for a quantity of EMR-T's new Model 410 Universal Tunable Discriminator. The brand new UTD was just introduced to the market last month, and a busy schedule of customer demonstrations is underway--both in-house and at customer locations.

"This first order for our advanced 410 Discriminator is an indication of the excellent customer acceptance we have been receiving," says Product Manager Kent Morgan. Sandia expects to use the EMR UTD in a data reduction facility, utilizing the Discriminator's flexibility and ease of changing frequency, deviation and data cutoff.

ATTEND ISA SYMPOSIUM

EMR-T participated in the ISA 18th National Aerospace Instrumentation Symposium in Miami recently via a technical paper and display of our newer aerospace telemetry products. Representing EMR were Marketing Manager Shelby Bass, Senior Sales Engineer Harry Johnson and Senior Principal Engineer W. N. Waggener. Bill Waggener presented a paper entitled "Recent Advances in Symbol Synchronization." On display were our Model 720 Bit Synchronizer, Model 410 Universal Tunable Discriminator, and 600-series equipment.

ANNIVERSARY GREETINGS

Happy anniversary to the following employees marking major service milestones in May:

<u>1947</u>	Alf Englund
<u>1957</u>	Betty Drymon
	Bill Gibson
	Jim Moffat
	Joe Smith
<u>1962</u>	Nina Corbitt
	Keith Thatcher
<u>1967</u>	Tom Dennison
