## SUMMER JOBS

Human Resources will be happy to match summer job applicants with departments that can budget for student positions. The first step is to identify summer opportunities. These should be handled through the purchase requisition system, specifying dates, job description, and skills required. HR will then forward applications for review. Some funds will also be available from HR for special summer opportunities. Please contact Delores Martinez, x6929, if you would be willing to take a student but don't have departmental funds available.

We will use the Bulletin to inform everyone about any summer positions that might be available. Please keep in mind that both applicants and job opportunities must be handled through HR to keep the process open and fair to all.
